Our Jubilee Week-end – A 'Parish' Success!

What a glorious and fantastic extended week-end we had in celebration of the Queen's Platinum Jubilee!

It was indeed a true 'Community' effort and in that continuing spirit both Fiona and I would like to express and share both our thoughts and gratitude to everyone who helped make the Jubilee Week-end a truly memorable occasion:

It really was a very joyous few days and we have received the most gracious comments and thanks from many attending and joining in with the numerous attractions and shows. This narrative will be purposefully brief (hurray we hear!) to allow space for the wonderful photos to provide for the more colourful story.

We must say, however, that for us the real success was not just the week-end events but the co-operation, co-ordination and planning across all our Parish Institutions and to see the extraordinary effort and passion of parishioners determined to make such a success of the celebrations. And achieve they certainly did. Thank you so much to all who participated in whatever way. We genuinely cannot thank you enough!

We also believe that the 'Parish Meetings' format really worked well and provided an invaluable platform that allowed for the development of team work and the pooling of resources. The 'joined up' approach at theses 'round table' events was indeed a real community positive to build on and take forward.

The input of many hours of time, effort and dedication were simply awe inspiring to see and it was wonderful to find that many new faces had also joined the working parties that came to help. Whilst we would love to mention all individuals and the many special and unique achievements by name, we would truly need an extended edition to do so. Nevertheless, we would like to comment that the 'Samosas' attracted a particular mention in 'dispatches' from Sir Gavin's office!

Kind regards and again our enormous thanks from us both.
